FORE!

Wow! What a great day for a golf tournament! The annual COPAS Golf Tournament at Coffee Creek in Edmond was quite a success. To all of the tournament volunteers, many thanks for putting together a fun event. To the young ladies at the par three holes, I would like to add my special thanks for enduring golf ball sized hail while I was on the tee box. I hope I adequately communicated "FOREwarning".

Nearly every time I walk on a golf course, I must make sure I'm prepared to communicate caution to the myriad of unintended human targets. Note that in our day-to-day activities, we don't always have the luxury of such audible communication. Sometimes, you must rely on other skills to learn what others might be thinking. At our technical session this

month, **Ann Marks** provides us with a learning opportunity to pick up on some body language and read another person. This presentation will provide participants with a tool that will give them an accurate and immediate assessment of each person they meet. Participants will learn how to better read the information that is available on someone's face whether it be anger, stress, deception, confusion, wariness or personality traits such as stubborn, creative, intuitive, competitive and much more. Face reading creates a deeper empathic connection with others, better working alliances, better interviews when hiring employees and better sales and customer service. It will enhance communication between management and employees. By the end of this presentation, participants will never look

at another person the same way again.

Ann Marks has earned two masters degrees – one in theology and the other in counseling psychology and is a qualified therapist. After teaching and counseling for over 20 years, Ann became the first woman Executive Vice President of Challenger, Gray & Christmas, a multi-million dollar international outplacement firm based in Chicago. After 14 years with Challenger, she left to become the Executive Director of the Young Presidents' Organization International Forum whose world headquarter is located in Irving, Texas.

Learning this new skill should be a handy tool. But don't worry; I won't require you to read my face should a wayward golf ball launch your way.

Accts 1300 – Audit and 1700 – Joint Interest
JI Chairs: Dennis McGee, Chesapeake
Melissa Gruenewald (JI), Chesapeake
Audit Chairs: Mike Pearman, Chaparral
Rick Stong, Chesapeake Energy

Hello, everyone!

The last meeting of the Oklahoma City Joint Interest Committee was September 11, 2007 at the Skirvin Hotel where we had 24 attendees representing 8 companies. The Audit Committee met jointly with the JI Committee and had 10 attendees representing 6 companies. Combining the two committees into one meeting continues to aid in discussions as well as attendance.

At the combined meeting, we gave a recap of the July national meeting in Tulsa. We also briefly discussed AG-28 Real Time Operations Center (RTOC) for Drilling and Completion Activities document. We briefly discussed AG-24 Guidelines for Obtaining Approval of Accounting Procedure Exceptions since it is referenced in AG-28. Since there were no other pending

documents, we decided to go back and review past documents as an educational tool. We discussed MFI-48 for Drilling Overhead and MFI-35 for Charging of Training Costs to the Joint Account.

Our next meeting will be October 9, 2007 at 4:00 at the Skirvin Hotel. We will vote on AF-28 RTOC, since it will be a voting item at the national meeting in late October. We will also continue the training on other Joint Interest or Audit topics. See you on October 9!

Thanks,

Dennis & Melissa, Mike, & Rick
